BUSINESS PROFILE

EUREKA TRADES

ABOUT US

Eureka Trades was founded by our very own Mr. Reza Pratama and was officially launched for the benefit of the public in January 2021.

From a humble beginning as a former Quantitative Analyst at a small hedge fund firm in London, Mr. Reza now is a reputable trader managing private funds of atleast USD 1.5m since 2016.

Eureka Trades pride itself with impressive trading records since 2016 (private clients), and since 2019 (Copytrade services) respectively.

HOW IT STARTED

The rest is history...

2016. Reza Pratama (Founder of Eureka Trades) started to manage fund worth \$500k for private investors

The trades went well and Reza has been making handsome return for investors. Thanks to his countless hours watching the live trade minute by minute

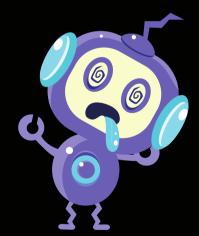

It was in 2018, Reza discovered a pattern, a correlation between Gold with few commodities and currencies. The pattern can predict the exact time of pending orders for Gold by big institutions that can move the market like 100-500 pips within less than an hour

The biggest drawback with this method is the ability of human to "seize" that golden period, that happen on daily basis. No human can possibly monitor the market constantly every second of the day.

Writing an EA (Expert Advisor) for the purpose of mt4 comes with too many limitations, as EA can only be written to trade for one chart at a time. For Eureka to work, one need to monitor between 4 to 5 different instrument in correlation with the prevailing gold market price.

Then...came the EUREKA moment....

Reza started to write the scanning software to scan the other instruments that are directly and inversely proportional to gold. The scanner will give the alert required at any time of the day

After so many rounds of rewriting the scanner, finally he found the best algorithm and able to test run his hyphothesis.

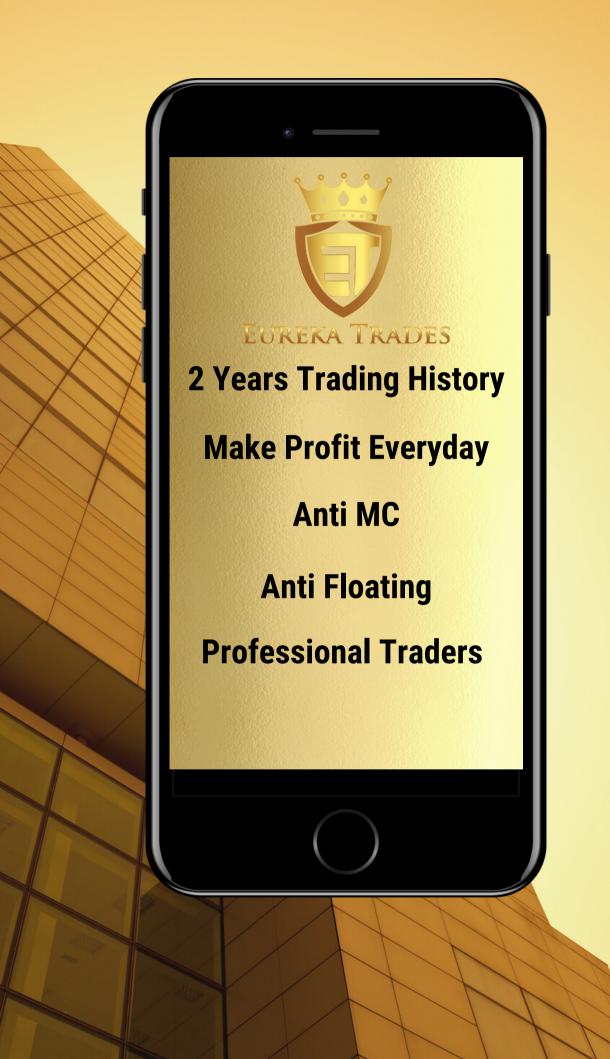

The discovery was really "shocking". To his surprise, the accuracy is at around 90% (to date April 2021 is at 93.56%)

June 2019, Reza started to test run with a real account. Started with \$10,000. The total accumulated profit today (as of 31 October 2021) is 421.87%)

TRADING SYSTEM

Our Trading System

Eureka Trades system is a breakthrough discovery in financial trading world.

It was around 2018, a pattern was discovered, a correlation between gold with few commodities and currencies. The pattern can predict the exact time of pending orders for gold by big institutions that can move the market between 100-500 pips within less than an hour

Armed with this knowledge, we trade the gold market at this very exact moment every day since 6th June 2019

- 2. If at any month the clients wish to withdraw, the calculation will be reset, the accumulated trading profit will not be taken into account. The Loyalty Compound Profit will be calculated as if it is the first month.

Example 2

MONTH 1

• Deposit = \$1,000

• Profit Month 1 = \$ 100

• Accumulated Profit = \$ 100

• Withdrawal = \$ 0

Entitle for Loyalty Compound Profit $= 7.5\% \times \$100 = \7.50 if no withdrawal are made till end of Month 2

MONTH 2

Minimum Balance = \$1,000

• Profit Month 2 = \$100

Accumulated Profit = \$200

• Withdrawal = \$0

Entitle for Loyalty Compound Profit $= 7.5\% \times \$200 = \15.00 if no withdrawal are made till end of Month 3

MONTH 3

• Minimum Balance = \$1,000

• Profit Month 3 = \$100

• Accumulated Profit = \$300

• Withdrawal = \$0

Entitle for Loyalty Compound Profit $= 7.5\% \times \$300 = \22.50 if no withdrawal are made till end of Month 4

Received Loyalty Compound Profit from Month 1 = \$7.50

MONTH 4

• Minimum Balance = \$1,000

• Profit Month 4 = \$100

• Accumulated Profit = \$400

• Withdrawal = \$0

Entitle for Loyalty Compound Profit $= 7.5\% \times \$400 = \30.00 if no withdrawal are made till end of Month 5

Received Loyalty Compound Profit from Month 2 = \$15.00

MONTH 5

• Minimum Balance = \$1,000

• Profit Month 5 = \$100

• Accumulated Profit = \$ 0

• Withdrawal = \$100

NOT entitled for Loyalty Compound
Profit for Month 5

Received Loyalty Compound Profit from Month 3 = \$22.50

Client made withdrawal.

Any amount of
withdrawal made, the
client will be disqualified
for Loyalty Compound
Profit for this month

MONTH 6

• Minimum Balance = \$1,000

• Profit Month 6 = \$100

Accumulated Profit = \$100

• Withdrawal = \$0

Entitle for Loyalty Compound Profit $= 7.5\% \times 100 = 7.50$ if no withdrawal are made till end of Month 7

Received Loyalty Compound Profit from Month 4 = \$30.00

This month, no withdrawal made. So the Loyalty
Compound Profit is given as usual but the accumulated profit is recalculated (reset) starting from Month 6 only

Profit Sharing

- 1. Profit sharing bonus means, you will receive percentage of clients' profit every month
- 2. As a networker, you are entitled to receive profit sharing for all you networks under your link

Eligibility

Only applicable for rank IB, subject to terms and conditions

Payment

- 1. Profit sharing will be paid to you every 5th of every month
- 2. Payment will be credited to your trading account wallet in USD

PROFIT SHARING

Example

For ease of calculation, assumption:

All clients deposit = \$1,000 Trading Profit 10% = \$100

Formula:

No of Clients x Trading Profit x Level Profit Sharing %

Level 1

- = 18 clients x \$100 x 5%
- = \$90

Level 2

- = (10 clients x \$100 x 4%) + (12 clients x \$100 x 4%) + (13 clients x \$100 x 4%)
- = \$40 + \$48 + \$52
- = \$140

Level 3

- = 10 clients x \$100 x 3%
- = \$30

Level 4

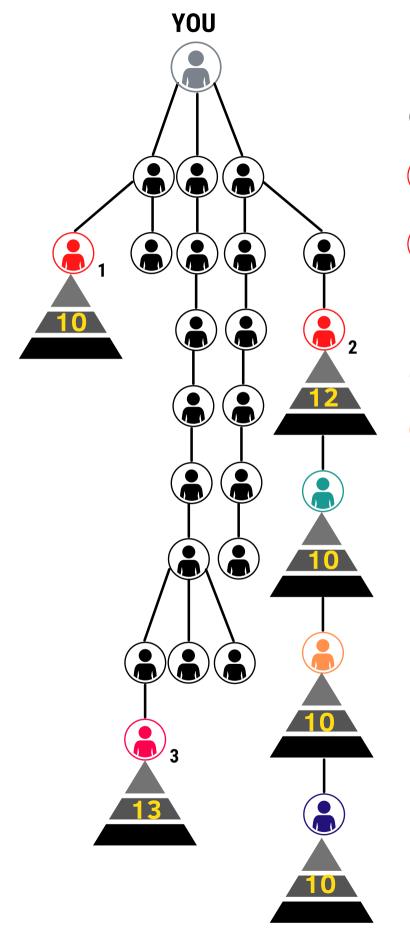

- = 10 clients x \$100 x 2%
- = \$20

Level 5

- = 10 clients x \$100 x 1%
- = \$10

Therefore; Total Profit Sharing

- = L1 + L2 + L3 + L4 + L5
- = \$90 + \$140 + \$30 + \$20 + \$10
- = \$290

- Trade lot is 0.10 per trade everyday ONE (1) month or 20 trading days, a \$1,000 account will trade; = 0.10 lot x 20 days = 2.00 lot

Formula:

Number of Client x Lot Traded x Level Point

Level 1

- = 18 clients x 2.00 x \$5
- = \$180

Level 2

- = (20 clients x 2.00 x \$2)
 - + (25 clients x 2.00 x \$2)
 - + (30 clients x 2.00 x \$2)
- =\$80 + \$100 + \$120 = \$300

 - $= 0.20 \text{ lot } \times 20 \text{ days} = 4.00 \text{ lot}$

Formula:

Number of Client x Lot Traded x Level Point

Level 1

- = 18 clients x 4.00 x \$2.00
- = \$144

Level 2

- $= (50 \text{ clients } \times 4.00 \times \$1.50)$
