

ROBOT999

Please read all information carefully and learn to make money fast

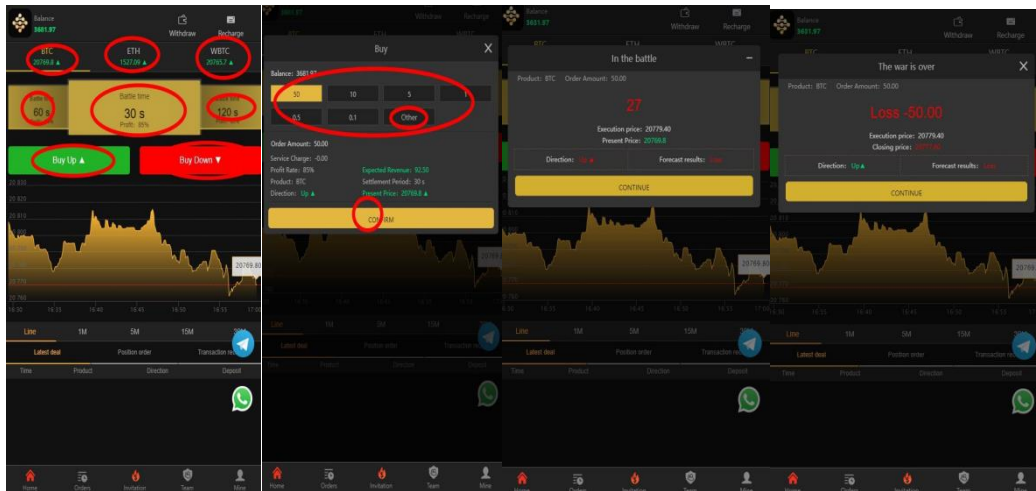

First of all, you need to understand

okayex is a bitcoin trading platform, anyone can join and use it, I am not the owner of okayex, relatively speaking, I am also a user of okayex

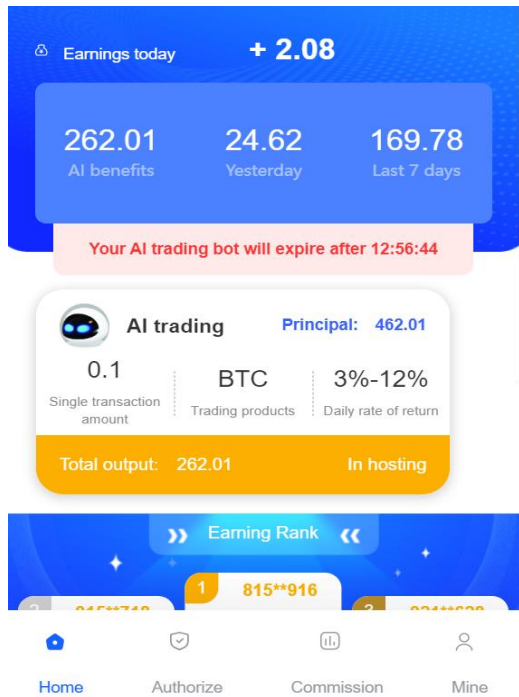

The okayex platform was launched in 2021 and has been used for nearly two years, so you don't need to worry about the risk of losing money due to the closure of the platform

Since okayex is a trading platform, when we trade personally, there will be two situations of loss and profit

And our company is a technology company, mainly looking for these trading platforms on the market, looking for loopholes in them, developing auxiliary trading software, and obtaining profits from them

So I developed robot999, an intelligent trading software.

robot999 can simulate a real person to trade on the okayex account, and through rigorous calculations to increase the winning rate of the order

So everyone must keep it secret, and the customer service personnel of okayex cannot discover the existence of robot999

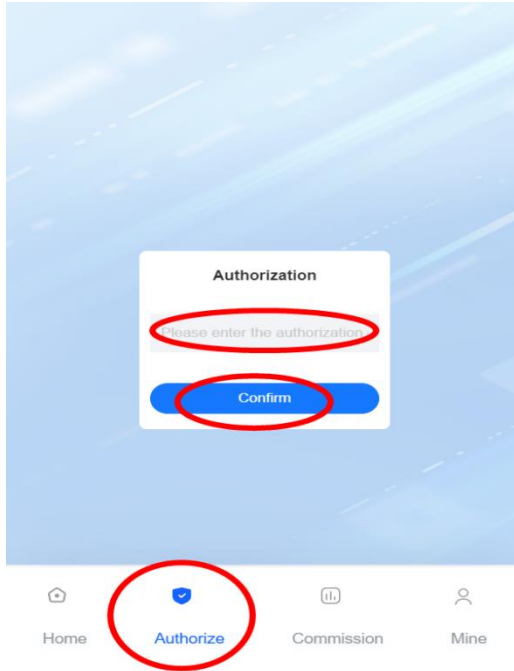

First step is to register to Okayex using this link

<https://api.okayex.com/index.html?code=1210363>

Then you go to Robot999 and register

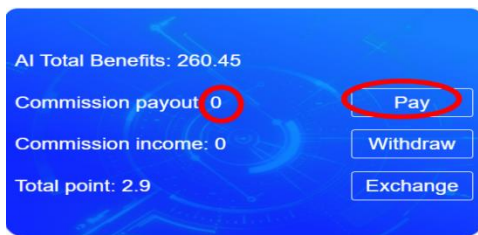

<https://www.robot999.net/register>

Connect Robot with exchange using your Okayex ID and password.

When you bind your Okayex account to robot999, you only need to enter the authorization code in robot999 (send me message in telegram that you made all previous steps and I will give you the link to get code) to start the robot every day, and you can automatically generate income. The amount of the account is different, and the income is also different

I provide you with free robot money-making software to help you make money every day. So when you withdraw money, I will charge 30% of the profit as a cooperation fee

Commission Payout Rules:

For users who use smart robots, after successful withdrawal, we will charge 30% of the withdrawal amount as a handling fee for our smart robots.
If you refuse to pay the handling fee after the withdrawal is successful, your smart robot account will be deactivated.

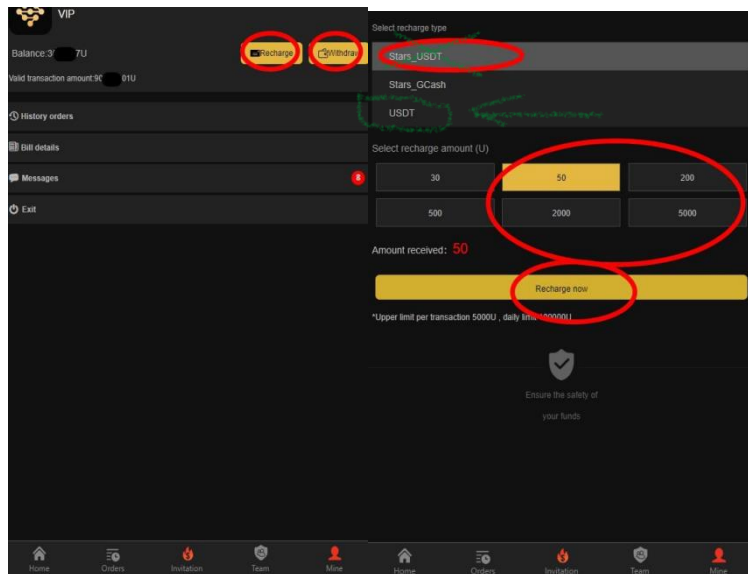

Commission Earning Rules:

If you invite subordinates to join us, we will pay you a commission reward.
E.g:
If you invite A to join us, our smart robot helps A earn \$100, A needs to pay $100 \times 30\% = \$30$ as a commission for the smart robot, and we will provide \$10 as your commission reward. Of course, your team

When you withdraw money, the robot will automatically calculate the commission

You must settle the commission before continuing to use the robot

Since the withdrawal and recharge need to be completed on the okayex account, the withdrawal of okayex must recharge 50USDT to activate the VIP, and the withdrawal fee is 10%. That's why our robot sets the initial investment amount to 50USDT

Five ways you can make money with bots

- 1:** Use the principal of 50 UDT, do not withdraw in the early stage, let your income accumulate slowly (it is expected to reach 5000\$ in 3 months)
- 2:** Increase investment, the higher your account balance, the higher the income (short-term quick way to make money)
- 3:** Invite friends to join, get high cash rewards and monthly salary rewards (everyone makes money together)
- 4:** There are one or two days of high-yield opportunities every month, and the income on that day may reach more than 20% (you can prepare funds in advance, recharge and increase the principal when the opportunity arrives, and get back the principal after earning the income of the day)
- 5.** Redeem points for cash rewards in the robot account

Daily earnings for different account balances

The principal below 30U- 99U, the income is 4%-5%

The principal below 100U-399U, the income is 4%-6%

400U-799U principal, income 5%-8%

800U-1499U principal, income 6%-10%

The principal of 1500U-2999U, the income is 8%-12%

More than 3000U principal, income 10%-16%

(The quota above 600U is full, and there is no vacancy for the time being. The quota will be increased later)

Rewards for inviting subordinates

1. 5 USDT automatically unlocked by okayex

(The bonus will be automatically released in the okayex account and added to the balance)

2. I will send you 5 USDT directly

(The administrator will send the bonus to your Binance account)

3. Complete the task to get a monthly salary (50USDT--500USDT)

(Invite 3 subordinates, monthly salary 50USDT)

(Invite 5 subordinates, monthly salary 100USDT)

(Invite 8 subordinates, monthly salary 200USDT)

(Invite 20 subordinates, monthly salary 500USDT)

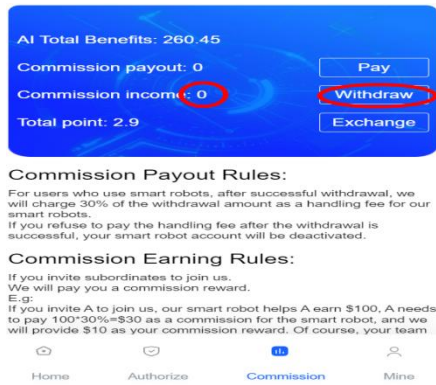

The monthly salary will be issued every month after the completion of the task

4. You can get 10% of the profits earned by your subordinates

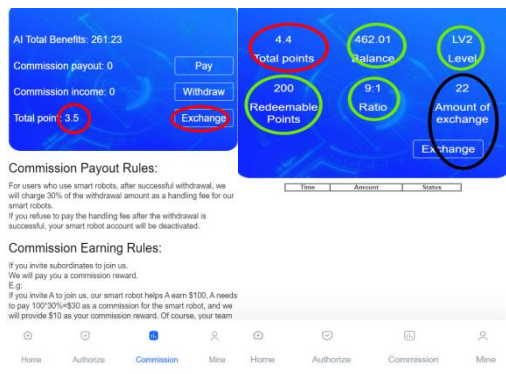

(For example: one of your subordinates earned 1,000 USDT this month, and you can get a commission reward of 100 USDT after he withdraws money)

Note: These four bonuses can be obtained at the same time

Subordinates receive 10% commission

When your subordinates withdraw money, your rewards will arrive automatically. You can withdraw directly, the minimum withdrawal amount is 10USDT

Account Grade	Account Balance (U)	Redeemable Points	Exchange Rate (Points to U)	Exchange Amount (U)
LV1	200-399	100	10:1	10
LV2	400-799	200	9:1	22
LV3	800-1499	500	8:1	63
LV4	1500-2999	1000	7:1	143
LV5	3000-5999	3000	6:1	500
LV6	6000-9999	6000	5:1	1200
LV7	10000-19999	10000	3:1	3333
LV8	20000-39999	20000	2:1	10000
LV9	40000+	30000	1.5:1	20000

Points redemption is open on the 28th of every month and irregularly on the 15th of every month

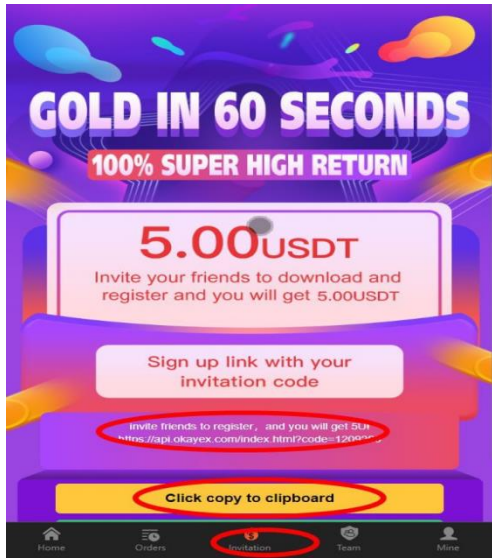

Points can be directly converted into USDT

Increase points by placing orders with bot trading

The higher the account balance, the higher your point level, the range of convertibility will be expanded, and the conversion rate will be reduced

When inviting friends, you must use your own account invitation link to register

(When registering an account, do not add +. (). Space symbols in the number)

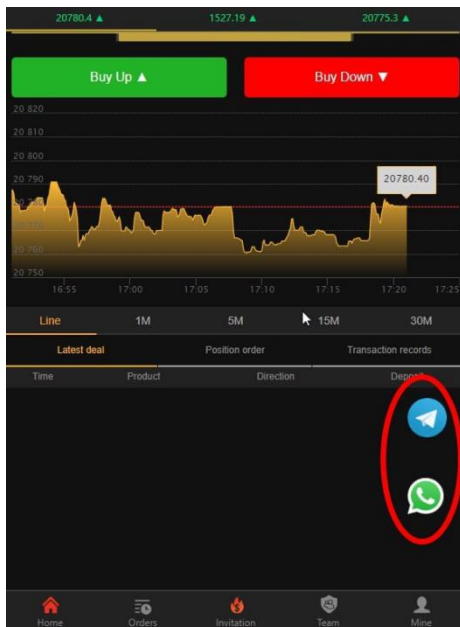

Click here to get your invitation link

The robot999 smart transaction registration link is unified

<https://www.robot999.net/register>

Robot999 login: <https://www.robot999.net/index.html>

If the recharge does not arrive within ten minutes, please contact customer service

If the withdrawal does not arrive within 1 day, please contact customer service

Please friends register okayex and robot 999 accounts, recharge to activate VIP. Minimum deposit 50USDT, maximum deposit 500USDT

After the recharge is complete, please contact your management manager

You have to explain all the rules to your friends

Details of rewards for inviting subordinates				
Number of subordinates	okayex bonus	admin bonus	monthly salary	total bonus
1	5U	5U	0U	10U
3	15U	15U	50U	80U
5	25U	25U	100U	150U
8	40U	40U	200U	280U
20	100U	100U	500U	700U

Note: Monthly salary is available every month. In addition, you can also get 10% of the income of subordinates

The only source of money for our robot company is the commission you send

I will try my best to help you make more money, so that we can also get higher commission income

The more users you join, the higher your income, and the higher the commission income of our company

So I hope everyone will make a long-term high-yield money-making plan for themselves

Everyone should build their own subordinate team, so that you, your friends, and all of us can make money together, and your friends will also appreciate you.

Thank you for your cooperation, please read the information carefully, I don't want someone to lose the opportunity to make money because they are not familiar with the rules

I wish you all good health and good luck in everything, and make more money

Added by me: WITHDRAWAL RULES

In this document/guide, Robot admin does not mention anything about the withdrawal rules from

exchange Okayex, after couple of days of discussions with my upline and with Okayex support, I realized that there is some limitations regarding withdrawals, and I like that, because it could give more stability to the project and its liquidity.

So, in Robot site, you see your daily profit and your current balance. In Robot you can withdraw referral commission and exchange reward points, but you cannot withdraw your profit made from Robot, nor your deposit. You can do it in exchange Okayex, but under some conditions.

In Okayex you can see two numbers: one is your **balance**, another is your **Valid transaction amount**. We can withdraw only if our Valid transaction amount is higher than balance. How and when it happens. Day by day, Valid transaction amount grows faster than balance amount. In my case, with 50 USDT deposit, my Valid transaction amount grows double faster than balance. So, the amounts should be equal in around 20 days from deposit day. Minimum withdrawal amount is 50 USDT with 10% withdrawal fee.
