CRYPTOVERSE**

A DIGITAL **SOLUTION FOR** FOREX VERSE & CRYPTOVERSE

Metafury is a fintech development company that provides world-class software and support services to the financial services industry and digital asset platforms. Since 2020, Metafury has established a multitude of long-term partnerships with Forex and digital currency brokers, blockchain platforms, dealers, banks, and funds managers to empower people to grow their knowledge and wealth as part of a global community of investors & Learn more about the virtual world within the metaverse industry.

Metafury aims to see blockchain technology leveraged beyond the forex financial sector and crypto verse market. We believe blockchain can foster advancements in other fields by innovating across all functions. Despite the promising future that blockchain can create, the technology is still relatively considered emerging and young in adoption.

HISTORY OF FOREX MARKET

The first Forex market was established in Amsterdam roughly 500 years ago. This possibility to freely trade currencies helped stabilize currency exchange rates. From Amsterdam, Forex trades throughout the whole world were initiated. 240 years ago, in 1875, the Gold Standard was introduced.

2500 years ago, the Greeks and Egyptians traded goods and currencies with molten silver and gold coins, and their value was determined by their actual weights and size. 500 years later, currency minting was centralized during the Roman empire, and a government-run monopoly on currency trading was established. A centralized monopoly-like structure still exists today, with central banks deciding and ruling about monetary policies.

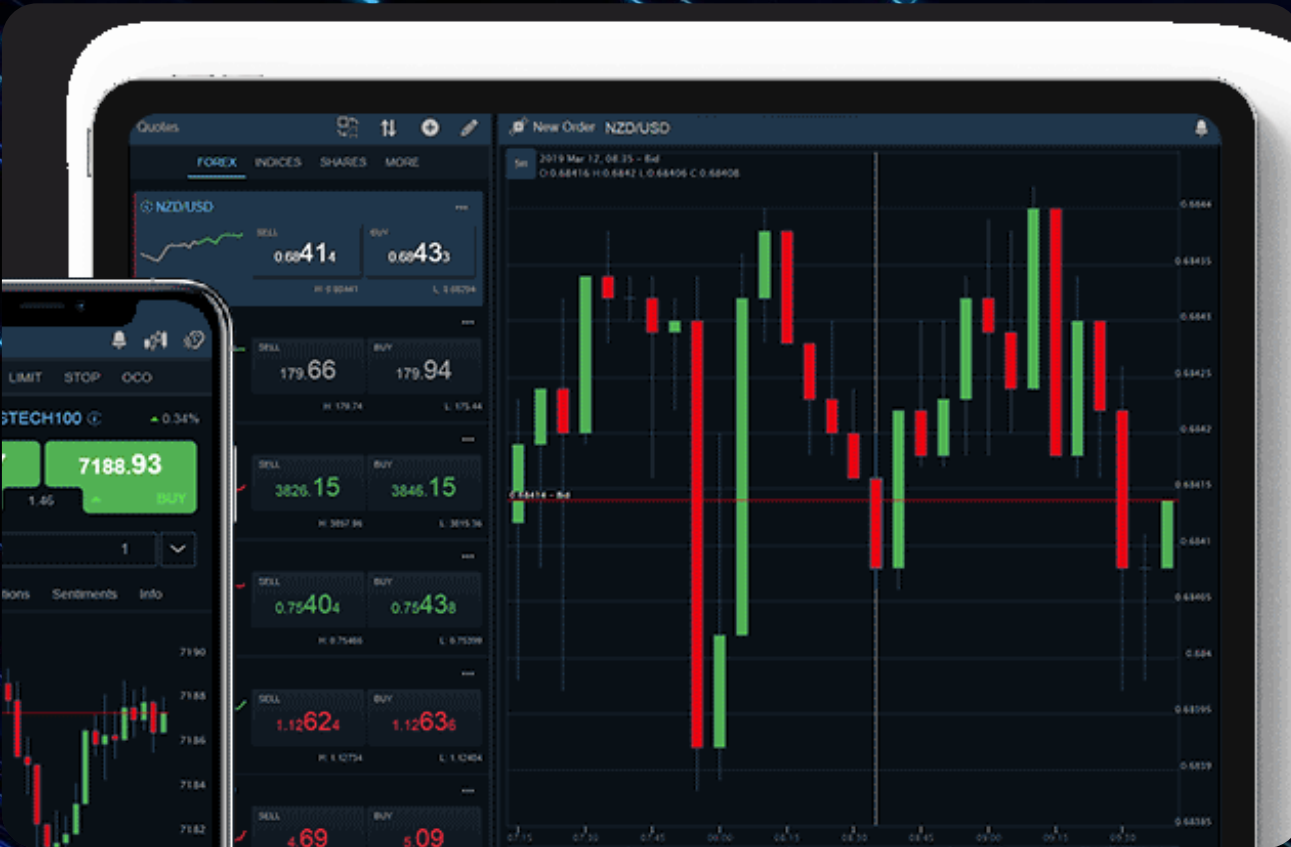

BENEFITS **OF METAFURY** IN FOREXVERSE

The future of trading of the crypto forex market is currently the largest and most liquid market in the world regarding trading volume. With an average daily turnover of \$5 trillion. We are all aware that the goal of the financial industry is to make its services attractive and as accessible as possible to potential customers. In this fast-paced industry, the introduction of computers and the advancement of technology have shaped the present, while Metafury is developing the virtual worlds using the Metaverse community, which might continue to shape the future of the crypto forex industry.

THE EVOLUTION OF FOREXVERSE

In the earliest times, man traded furs, skins, grains and oils, dried fish, sheep, horses, cattle, and oxen. Because of their durability, oxen became a favorite medium of exchange. With the division of labor and urban living came a new era in which new uses were found for metals (copper, bronze, gold, and silver). Because of their added usefulness, portability, and divisibility, their value increased, and they were eventually accepted as the medium of exchange. For convenience, standardized pieces of metal, known as coins, came into use. Occasionally, substitutes were used as “promises to pay” metals on demand when coins were in short supply. As stores of metal became too cumbersome to carry, paper receipts were issued for gold and silver deposited with goldsmiths for safekeeping.

If the goldsmith was honest and secure, such practice was preferred and eventually led to “banks” holding deposits for their customers and transferring them by checks.

THE **FUTURE OF FOREX** EXCHANGE TRADING

METAFURY CONTINUES TO GROW THROUGH CRYPTO FOREX

One of the most significant sources of confusion for those new to the FX market is the market convention. We need to make clear the meaning of the following terms in the forex market first. The forex market has grown steadily ever since exchange rates began to float in the 1970s, from a value of \$5 billion in 1977 to \$ 5.5 trillion in 2017. But can this trend continue?

Metafury Looking at the value of the market over the past 40 years, it has continued to increase in value at a steady rate.

THE CRYPTO FOREX MARKET IN 2025

OF RETAIL FOREX TRADERS ARE **UNABLE** TO ACHIEVE PROFIT FOR MORE THAN FOUR QUARTERS CONSECUTIVELY

— JOHN FORMAN
PHD RESEARCHER

AVERAGE ANNUAL SALARY
ACROSS CAREER PORTALS

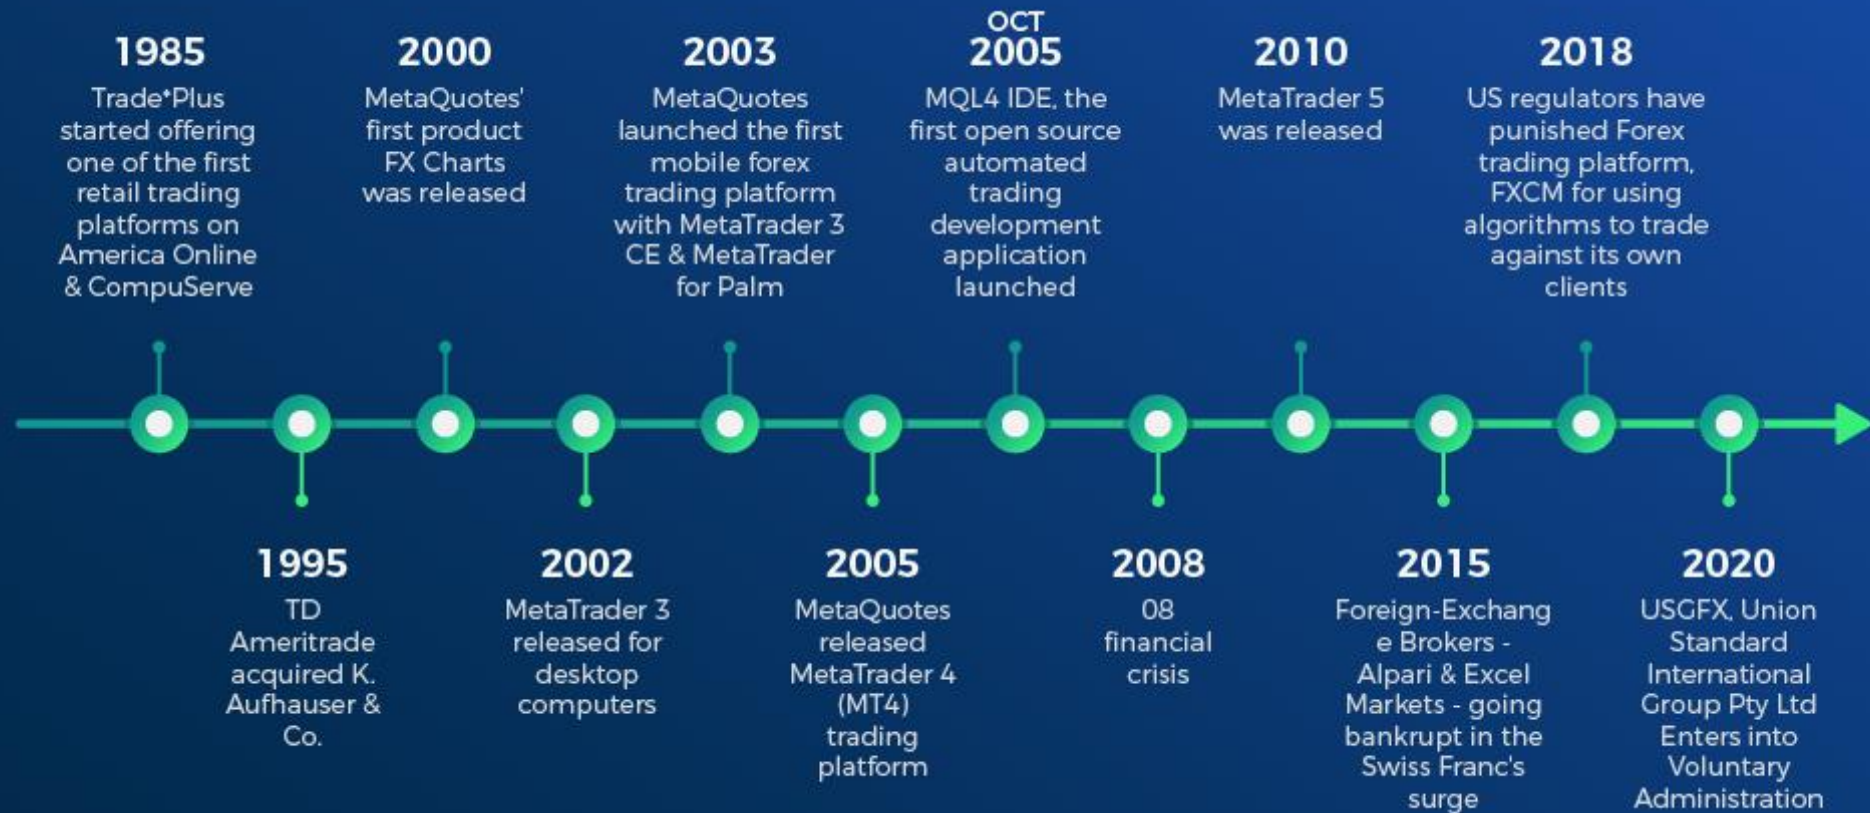

\$94,016

Crypto Forex is a \$5.1 Trillion Per day market & with the help of Metafury, and the new crypto forex market will be 100X higher in the next 5 years.

HOW **WAS MODERN ONLINE** FOREX TRADING STARTED?

AUTOMATED **TRADERS** FUNCTION

We build Real Experiences for a Virtual World, a Custom-Made ecosystem within the Cryptoverse & forex verse. Metafury is good at using virtual technologies to make tailored virtual platforms that can deliver crypto into forex verse services in a non-real world to real customers in real time.

The Cryptoverse & Forex verse is highly sensitive to every change in virtually all areas of business. We work around the clock to improve all our services and platform, constantly investing in people, technology, customer support, & infrastructure. Thus, we are always at the peak of technological innovation, enabling our customers to receive the best service in the industry at the lowest cost.
